

## Artificial Intelligence and Expert Systems

Hi everyone!

I'm excited to be your teacher assistant for this class. To ensure that everything runs smoothly, I want to clarify the rules for submitting your assignments. Please read the following carefully:

- 1- Each student should upload only one compressed file in the following format: Student\_ID\_HW1.zip. Please make sure that your file is compressed using one of the following formats: zip, rar.
- 2- Your compressed file should contain two files: a report file and a notebook. The notebook should include all of the codes that you wrote for the assignment, while the report file should include all necessary results, plots, and explanations.
- 3- Only your report file will be used for grading purposes, but your code will be checked to ensure that it is correct. So, please make sure that your report file contains all of the necessary information.
- 4- Late submissions will not be accepted, and they will receive a grade of zero.
- 5- You are allowed to work together with your classmates, but copying is strictly prohibited. If similar homework is submitted by multiple students, the grade will be divided by the number of submissions.

If you have any questions or concerns, feel free to contact me. You can reach me on Telegram using the following ID: [\[@BnReZa77\]](#) or you can send me an email at [bnreza98@gmail.com](mailto:bnreza98@gmail.com). I'm always happy to help!

I hope you will have a great semester, and I look forward to working together with you towards our common goals.
